Approved For Release 2008/08/01 : CIA-RDP80-00810A006200170010-7 CLASSIFICATION S.F.C.B-E.T 25X1 CENTRAL INTELLIGENCE AGENCY REPORT GION REPORT CD NO. * * 19 April 1955 COUNTRY East Germany NO. OF PAGES Institute for Microbiology and SUBJECT Experimental Therapy, Jena ENCLS. PLACE ACQUIRED DATE OF INFO. 25X1 4 THE PRICES OF THE PRICE CHARACTERS OF THE CANTON THE PRICES OF THE STATES OF THE STATE THIS IS UNEVALUATED INFORMATION 25X1 1. The microbiological group, chemistry section, from the Best German Academy of Sciences, visited the new institute for microbiology and experimental therapy in Jena, 11 Beutenbergstrasse, on 29 Ostober 1954. Professor Dr Kurt Noack, dean of the faculty of mathematics and natural sciences at the Humboldt University in Berlin was in charge of the group. The institute is subordinated to the Hinistry for Public Health Service; its director is Professor Dr Hans Knoell. He is assisted by Dr Fischer (fmm), a pathologist and by several chemists. Approximately 650 persons are employed, Emphasis is laid upon research in the following fields: antibiotics (Penicillin), cancer research, tuberculosis vaccination (BCG method after Dacille-Calmette-Guerin). The institute has also a section for the training of young scientists. The institute was almost completed by the end of October 1954. It consists of a two-story building; ap roxinately 100 meters long, with a central wing and several annexes. The cost of construction and installations allegedly had amounted to about 9.6 million DME by the end of October 1954. Comment: Kuerschners Deutscher Gelehrten-Kalender 1954 lists a Dr. med. Walther Fischer, a mathologist, residing at Ziegelmuehlenweg 1, Jena. 25X1 25X1
